

One-stop service - world-class, worldwide

Tank Mixes

Eurofins Agrosience Services

With over 30 years of experience in Crop Protection, Eurofins Agrosience Services is a global CRO offering exceptional technical knowledge, testing and regulatory consultancy to plant health and crop protection manufacturers, the agri-tech sector, plant breeders and the seed industry.

In a dynamic and complex regulatory environment, our priority is to support clients through every stage of the agrochemical registration process.

We are a leading provider of technical support and product development to the crop protection industry. Our technical activities involve conducting field and laboratory studies to ascertain the safety and efficacy of new agrochemicals and crop varieties.

Legal Requirements

Tank mix testing is a basic requirement to support the inclusion of a recommendation for a tank mixture on a product label.

Our Credentials

At our facility in Derbyshire, UK, we have a skilled, committed onsite team that provide tank mix services for EAS Group:

- EAS Group has over 25 years of combined experience in tank mixes
- All equipment needed for the BAA static/dynamic methods is available
- All equipment needed for the ASTM E1518-05 reapproved 2019 dynamic method is available
- Cipac D water is prepared on site as required for the methods
- Methods can be modified to meet sponsor requirements
- Compatibility of products with sprayer nozzle parts is also available
- Tractor sprayability testing, using a Hardi 400L sprayer
