

One-stop service - world-class, worldwide

Study and Program Management

Eurofins Agrosience Services

With over 30 years of experience in Crop Protection, Eurofins Agrosience Services is a global CRO offering exceptional technical knowledge, testing and regulatory consultancy to plant health and crop protection manufacturers, the agri-tech sector, plant breeders and the seed industry.

In a dynamic and complex regulatory environment, our priority is to support clients through every stage of the agrochemical registration process.

A dedicated point of contact

In today's environment, peace of mind is an increasingly important commodity. Be confident that our Study Directors and Program Managers are 100% onside to ensure that all studies are compliant with your requirements and respect the OECD, EPA and EPPO regulations. Eurofins Agrosience Services uses knowledge and experience to optimize services:

- More than 120 experienced Study Directors and Program Managers across Europe, North and Latin America, and South-East Asia
- Plant Protection Product, Biocide and Biotech studies, from early-stage screening through to demonstration platforms in order to support sales
- From study set-up until completion, regular information on the progress of each study
- Visits and meetings to evaluate your products at critical stages of the development project
- Data analysis using specialized software such as ARM or other formats according to your preference
- Study reports delivered in accordance with your timelines, containing all information for dossier preparation

A flexible and reliable service

Study and Program Management services are integrated at global level to ensure a high quality service.

We constantly adapt our offer and train our expert teams to exceed your expectations.

- Field studies designed according to local Good Agricultural Practices to ensure maximum use of the efficacy, residue and ecotoxicology data generated across our GLP and GEP certified global field network
- Phys-chem and analytical services, e-fate and ecotoxicology laboratory studies supervised by highly specialized Study Directors and Program Managers
- Involvement of local Study Directors and Program Managers for national studies and co-ordination of international multi-site studies through our centralized Study and Program Management teams
- Integrated databases designed for efficient communication. Our secure **Study Customer Extranet system (SCE)** is also accessible to customers for real-time access to study data.

Project management

Eurofins Agrosience Services offer a tailored approach to your specific requirements giving you as much, or little involvement as you want. We have established a strong group of senior staff to provide the best service possible:

- Advice on development strategies in a regulatory context
- Help for interpretation of study results and provision of solutions
- Co-ordination in line with your requirements:
- To your time scale and budget
- By geographical spread
- Across specific areas of expertise
- To your technical specification

In summary, we are proud to offer an easy, trouble-free solution for managing your complex programs alongside our Study Directors and Program Managers. Fully integrated with your team, our staff will free up your time to concentrate on future projects.
